Sunshine Daydream™ Rose

Rosa 'Meikanaro'

Height: 6 feet

Spread: 4 feet

Sunlight: ☉

Hardiness Zone: 5a

Group/Class: Grandiflora Rose

Description:

This remarkable variety produces gorgeous, cup shaped butter yellow blooms that mature with creamy outer petals; perfect for cutting; very little scent but excellent disease resistance and a stunning presentation

Ornamental Features

Sunshine Daydream Rose features showy buttery yellow cup-shaped flowers with creamy white overtones and gold eyes at the ends of the branches from late spring to mid fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves do not develop any appreciable fall colour.

Landscape Attributes

Sunshine Daydream Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It is a good choice for attracting bees to your yard. It has no significant negative characteristics.

Planting & Growing

Sunshine Daydream Rose will grow to be about 6 feet tall at maturity, with a spread of 4 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front, and is suitable for planting under power lines. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 30 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. To help this plant achieve its best flowering performance, periodically apply a flower-boosting fertilizer from early spring through into the active growing season. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.
