Lemon Drift® Rose

Rosa 'Meisentmil'

Height: 24 inches

Spread: 3 feet

Sunlight: ○

Hardiness Zone: 5a

Other Names: Lemon Splash

Group/Class: Groundcover Rose

Description:

This variety is a compact groundcover rose producing lemon yellow blooms that mature to cream throughout the season; foliage is deep green and provides great contrast; its spreading habit makes it perfect as a full sun groundcover foundation planting

Ornamental Features

Lemon Drift Rose features showy lemon yellow cup-shaped flowers with creamy white overtones and gold eyes at the ends of the branches from mid spring to early fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves do not develop any appreciable fall colour.

Landscape Attributes

Lemon Drift Rose is a multi-stemmed deciduous shrub with a ground-hugging habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It is a good choice for attracting bees to your yard. It has no significant negative characteristics.

Lemon Drift Rose is recommended for the following landscape applications;

Ottawa West

2079 Carp Road
Ottawa, Ontario, Canada
K2S 1B9
Telephone: +1 613 836 6880

Ottawa East

1390 Windmill Lane
Ottawa, Ontario, Canada
K1B 4V5
Toll Free: +1 800 267 1922
Telephone: +1 613 741 4430

Brockville

3043 County Rd. 29
Brockville, Ontario, Canada
K6V 5T4
Telephone: +1 613 341 9343

Planting & Growing

Lemon Drift Rose will grow to be about 24 inches tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 30 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.

Lemon Drift Rose makes a fine choice for the outdoor landscape, but it is also well-suited for use in outdoor pots and containers. Because of its spreading habit of growth, it is ideally suited for use as a 'spiller' in the 'spiller-thriller-filler' container combination; plant it near the edges where it can spill gracefully over the pot. It is even sizeable enough that it can be grown alone in a suitable container. Note that when grown in a container, it may not perform exactly as indicated on the tag - this is to be expected. Also note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden. Be aware that in our climate, most plants cannot be expected to survive the winter if left in containers outdoors, and this plant is no exception. Contact our experts for more information on how to protect it over the winter months.
