Pink and Yellow Gerbera Daisy

Gerbera 'Pink and Yellow'

Plant Height: 12 inches

Flower Height: 16 inches

Spread: 12 inches

Spacing: 18 inches

Sunlight:

Hardiness Zone: (annual)

Other Names: Transvaal Daisy

Description:

Beautiful pink daisies with butter yellow centers and a coppery brown central disc, rise above sea green foliage on this upright variety; perfect for garden beds, borders and containers; excellent in cut-flower arrangements; adaptable as a houseplant

Features & Attributes

Pink and Yellow Gerbera Daisy features bold pink daisy flowers with coppery-bronze eyes and buttery yellow centers at the ends of the stems from early summer to mid fall. The flowers are excellent for cutting. Its tomentose oval leaves remain bluish-green in colour throughout the year.

This is an herbaceous houseplant with an upright spreading habit of growth. You may trim off the flower heads after they fade and die to encourage repeat blooming.

Planting & Growing

When grown indoors, Pink and Yellow Gerbera Daisy can be expected to grow to be about 12 inches tall at maturity extending to 16 inches tall with the flowers, with a spread of 12 inches. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 3 years. This houseplant will do well in a location that gets either direct or indirect sunlight, although it will usually require a more brightly-lit environment than what artificial indoor lighting alone can provide. It does best in average to evenly moist soil, but will not tolerate standing water. The surface of the soil shouldn't be allowed to dry out completely, and so you should expect to water this plant once and possibly even twice each week. Be aware that your particular watering schedule may vary depending on its location in the room, the pot size, plant size and other conditions; if in doubt, ask one of our experts in the store for advice. It is not particular as to soil type or pH; an average potting soil should work just fine.

There are many factors that will affect the ultimate height, spread and overall performance of a plant when grown indoors; among them, the size of the pot it's growing in, the amount of light it receives, watering frequency, the pruning regimen and repotting schedule. Use the information described here as a guideline only; individual performance can and will vary. Please contact the store to speak with one of our experts if you are interested in further details concerning recommendations on pot size, watering, pruning, repotting, etc.

-- THIS IS A HOUSEPLANT AND IS NOT MEANT TO SURVIVE THE WINTER OUTDOORS IN OUR CLIMATE --
