### Varied Directions Larch

*Larix decidua 'Varied Directions'*

Height: 8 feet

Spread: 8 feet

Sunlight: ○

Hardiness Zone: 3a

Other Names: Common Larch

#### Description:

An unusual variety with robust twigs that rise up and out, hence the varied spreading characteristic; usually grafted on a standard to a certain height; best used as a solitary or accent in a garden composition, will definitely draw the eye to it

#### Ornamental Features

Varied Directions Larch is primarily valued in the landscape or garden for its ornamental upright and spreading habit of growth. It has rich green deciduous foliage which emerges light green in spring. The needle-like leaves turn an outstanding gold in the fall. The twisted gray bark and gold branches are extremely showy and add significant winter interest.

#### Landscape Attributes

Varied Directions Larch is an open multi-stemmed deciduous shrub with an upright spreading habit of growth. It lends an extremely fine and delicate texture to the landscape composition which can make it a great accent feature on this basis alone.

## **FEED & SEED INC.**

This is a relatively low maintenance shrub, and usually looks its best without pruning, although it will tolerate pruning. Deer don't particularly care for this plant and will usually leave it alone in favor of tastier treats. It has no significant negative characteristics.

Varied Directions Larch is recommended for the following landscape applications;

- Accent
- General Garden Use

### **Planting & Growing**

Varied Directions Larch will grow to be about 8 feet tall at maturity, with a spread of 8 feet. It has a low canopy, and is suitable for planting under power lines. It grows at a medium rate, and under ideal conditions can be expected to live for 40 years or more.

This shrub should only be grown in full sunlight. It is quite adaptable, preferring to grow in average to wet conditions, and will even tolerate some standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This is a selected variety of a species not originally from North America.
