Height: 4 feet

Spread: 3 feet

Sunlight: ○

Hardiness Zone: 6b

Group/Class: Hybrid Tea Rose

Description:

This hybrid's heady fragrance compliments its bright orange-red coloring; a modern bush rose that grows into a sturdy upright plant producing blossoms that are perfect for cutting; blooms constantly all season and makes a tremendous border when massed

Ornamental Features

Fragrant Cloud Rose is covered in stunning fragrant double coral-pink flowers at the ends of the branches from early summer to early fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The oval compound leaves turn yellow in fall.

Landscape Attributes

Fragrant Cloud Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a high maintenance shrub that will require regular care and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It is a good choice for attracting bees to your yard. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Disease
- Spiny

Fragrant Cloud Rose is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- General Garden Use

Planting & Growing

Fragrant Cloud Rose will grow to be about 4 feet tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.
