### **Touch of Class Rose**

***Rosa 'Touch of Class'***

Height: 5 feet

Spread: 4 feet

Sunlight: ○

Hardiness Zone: 5a

Group/Class: Hybrid Tea Rose

#### **Description:**

A little slice of paradise; this brightly-hued hybrid tea features splendid blossoms starting from high centered buds and open to a coral pink with shell pink highlights; it will make a strong focal point in the garden or along borders

#### **Ornamental Features**

Touch of Class Rose features showy fragrant double coral-pink flowers with shell pink overtones at the ends of the branches from early summer to early fall. The flowers are excellent for cutting. It has attractive dark green deciduous foliage. The glossy oval compound leaves are highly ornamental and turn yellow in fall.

#### **Landscape Attributes**

Touch of Class Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

Touch of Class Rose is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use

#### **Planting & Growing**

Touch of Class Rose will grow to be about 5 feet tall at maturity, with a spread of 4 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front, and is suitable for planting under power lines. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.
